## SOOGA's 2nd Annual Boat Ride

The Southeastern Ohio Oil & Gas Association is hosting our 2nd Annual Industry Appreciation dinner. Please join us on Friday, July 29th, 2022 for a night of fun aboard the Valley Gem. Boarding begins at 6:30 PM with departure promptly at 7:00 PM. Estimated return time is 10:00 PM. The Valley Gem is docked on the Muskingum River off of Front Street behind the Campus Martius Museum. There is ample parking under the Washington Street Bridge and the surrounding area. The SOOGA Board of Trustees looks forward to seeing you on Friday, July 29th and, as always, we appreciate your donations and support. There will be door prizes and 50/50 tickets sold throughout the night. All attendees will be entered into a drawing for \$100.00 cash plus tickets for next year's Boat Ride sponsored by Lippizan Petroleum Inc. See page 6 for more details.

---

## Save the date for the SOOGA Fall Trade Show September 29, 2022

Sponsorships and vendor booths are available. If interested please call the SOOGA office at 740-374-3203. Certification classes will also be held.

## THE CROW'S NEST

It's amazing how fast this year is going as we arrive at the half way point. We are still pushing forward amidst the challenges we are facing on many different fronts. The SOOGA board is continuing to work on our future events and stay up to date on any industry issues. We are excited for what lies ahead for the last half of the year!

Two more of our events were held this past couple of months. We held our Spring Golf Outing at Oxbow Golf Course on May 20<sup>th</sup>. We had a great turn-out as we had 19 teams play. The Spring Clay Shoot was June 24<sup>th</sup> at Hilltop Sporting Clays. We had 51 shooters for the day. I would like to thank BD Oil Gathering for sponsoring the BBQ lunch. We appreciate all our attendees, members and sponsors who make these events a success.

Next month we have our 2<sup>nd</sup> Annual Boat Ride aboard the Valley Gem Sternwheeler. The boat ride is set for July 29<sup>th</sup> and we will depart the dock at 7 p.m. The board has made some changes to the menu along with some different door prizes this year. Seating is limited so please send in your registration form as soon as possible. We look forward to seeing you there to enjoy a nice cruise on the river.

Recently we had a call with Utility Pipeline who is buying the Cobra System. The transaction is getting close to being finalized. They are trying to gather as much information as possible and are wanting to get some updated volume numbers. If you know anyone with gas on the Cobra system, please have them reach out and we can pass this information along to Utility Pipeline. We will keep everyone updated on the progress that they are making.

Lastly, I would like to ask everyone to check out our new membership flyer. The board has made some changes to our membership drive this year with offering a "per membership" prize. Please checkout the flyer for more information and tell your colleagues and associates about SOOGA. The organization keeps you up to date on the latest issues that arise and also gives our industry a voice. Please spread the word about this great organization and reach out to any board member or contact the office for any questions.

I would like to wish everyone a safe and Happy 4<sup>th</sup> of July!

Stand Tall, Stand United and Keep Pushing Forward!

Jared Stevens

<b>Total</b>	<b>1,902</b>	<b>1,812</b>	<b>90</b>	<b>90</b>	<b>2,299</b>	<b>-17.3</b>	<b>2,239</b>	<b>-15.1</b>

Totals may not equal sum of components because of independent rounding.

## Summary

Working gas in storage was 1,902 Bcf as of Friday, May 27, 2022, according to EIA estimates. This represents a net increase of 90 Bcf from the previous week. Stocks were 397 Bcf less than last year at this time and 337 Bcf below the five-year average of 2,239 Bcf. At 1,902 Bcf, total working gas is within the five-year historical range.

(continued to page 5)

(continued from page 4)

### Prices/Supply/Demand

**Northeast prices decrease as mild weather on average for the week results in lower consumption.** At the Algonquin Citygate, which serves [Boston-area consumers](#), the price went down 19 cents from \$9.03/MMBtu last Wednesday to \$8.84/MMBtu yesterday. At the Transcontinental Pipeline Zone 6 trading point for New York City, the price decreased 38 cents from \$8.23/MMBtu last Wednesday to \$7.85/MMBtu yesterday. According to data from PointLogic, natural gas consumption in all sectors in the Northeast fell by 0.7 Bcf/d (5%) from a week ago, led by a 15% decrease in consumption in the residential and commercial sectors. Temperatures in the [Boston](#) and [New York](#) areas were above normal, resulting in lower heating demand.

**Prices in the Appalachian production region fall as in-region demand decreases.** The Tennessee Zone 4 Marcellus spot price decreased 35 cents from \$7.85/MMBtu last Wednesday to \$7.50/MMBtu yesterday. The price at Eastern Gas South in southwest Pennsylvania fell 49 cents from \$8.11/MMBtu last Wednesday to \$7.62/MMBtu yesterday. Natural gas consumption in the Appalachian production region fell by 0.5 Bcf/d (8%), led by an 11% decrease in consumption in the electric power sector week over week, according to data from PointLogic. Production in the Appalachian Basin increased 0.5 Bcf/d (2%) week over week south to an average of 6.5 Bcf/d. The increase in southbound natural gas flows was offset somewhat by a decrease in flows to the Midwest of 0.2 Bcf/d (3%) to an average of 6.1 Bcf/d.

**U.S. natural gas supply increases week over week.** Overall U.S. natural gas supply rose by 0.4% (0.4 Bcf/d) compared with the previous report week, largely due to increased production from the Appalachian Basin, according to data from PointLogic. Dry natural gas production grew by 0.5% (0.5 Bcf/d), and average net imports from Canada decreased by 2.7% (0.1 Bcf/d) from the previous report week provided by Bloomberg Finance, L.P.

**Return registrations along with payment by Friday, July 22nd** as space is limited and final counts must be made. **Please make checks payable to Southeastern Ohio Oil and Gas Association, 2167 St. Rt. 821 Ste. A. Marietta OH, 45750.** If you would like to pay by credit card please call the office at 740-374-3203 or email: mail@sooga.org.

*SOOGA reserves the right to make changes or cancel this program due to insufficient registrations.*

(continued from page 5)

**U.S. natural gas demand falls as temperatures moderate toward normal.** Total U.S. consumption of natural gas fell by 4.3% (2.7 Bcf/d) compared with the previous report week, according to data from PointLogic. [Temperatures](#) have generally moderated across the United States despite some isolated pockets of higher- and lower-than-normal temperatures. The residential and commercial sectors accounted for the largest decrease in consumption week over week, falling by 19.7% (2.3 Bcf/d). Natural gas deliveries to U.S. LNG export facilities (LNG pipeline receipts) also fell slightly, averaging 12.8 Bcf/d, or 0.2 Bcf/d lower than last week. Industrial sector consumption declined by 1.8% (0.4 Bcf/d) week over week. Natural gas consumed for power generation also fell slightly, declining by 0.3% (0.1 Bcf/d) week over week. Natural gas exports to Mexico increased by 1.2% (0.1 Bcf/d).

**U.S. LNG exports decrease by one vessel this week from last week.** Twenty-three LNG vessels (eight from Sabine Pass, four each from Cameron and Corpus Christi, three from Freeport, two from Calcasieu Pass, and one each from Cove Point and Elba Island) with a combined LNG-carrying capacity of 85 Bcf departed the United States between May 26 and June 1, according to shipping data provided by Bloomberg Finance, L.P.

**Tier 1** - 150 + net barrels of crude oil.

No more than 2.5% BS&W (if the BS&W is over 2.5% it will then qualify for Tier 2 pricing) If trucking is able to load 160 net barrels of oil and other Tier 1 criteria are met, Ergon Oil Purchasing will waive the BS&W limit)

**Tier 2** - 60-149.99 net barrels of crude oil

Two Stops within 10 miles

**Tier 3** - 30-59.99 net barrels of crude oil

Please contact Ergon at 1-800-278-3364 for clarification on split load pricing.

The Marcellus/Utica Shale produced crude oil will be purchased based on the monthly average for the following postings:

38.0-49.9 API Gravity—**Marcellus/Utica Medium** crude oil

50.0-59.9 API Gravity—**Marcellus/Utica Light** crude oil

60.0+ API Gravity—**Marcellus/Utica Condensate** (formerly posted as Appalachian Sweet Light-ALS).

Other parameters will be evaluated on a farm by farm basis.

## Marginal Well Credit for 2020 Natural Gas Production Announced

Oil and Gas Industry Services Group  
Baker Tilly  
May 2022

The Internal Revenue Service announced May 10, 2022 in Notice 2022-18 that the Marginal Well Production Credit (MWC) for natural gas production from qualifying wells in calendar year 2021 is \$0.67 per mcf for the first 18mcf of daily production.

The MWC rates for prior years were 2020 production \$.66, 2019 production \$0.08, 2018 production \$0.00, 2017 production \$0.51, and 2016 production of \$0.14 per mcf for the first 18mcf of daily production from a marginal well. The credits may be used to offset regular income tax but may not offset alternative minimum tax. Any unused credit in a year is carried back 5 years to obtain refunds. Any remaining unused credits are carried forward up to 20 years to offset future year's income tax.

If you have any questions about this announcement or the application of these tax credits, please contact Marlin Witt ([marlin.witt@bakertilly.com](mailto:marlin.witt@bakertilly.com) or at 304.346.0441) or Bill Phillips ([bill.phillips@bakertilly.com](mailto:bill.phillips@bakertilly.com) or at 304.624.5471).

Baker Tilly is committed to staying up to date on issues that will benefit the oil and natural gas industry and those who serve its members.

## Sale of Oil and Gas Companies

The United States Bankruptcy Court for the Northern District of Ohio (*In re Osborne*, Case No. 17-17361) issued an Order authorizing Kari B. Coniglio, in her capacity as the Chapter 7 trustee for the bankruptcy estate of Richard M. Osborne Sr., to sell the membership interests in various limited liability companies, including Big Oat's Oil Field Supply Company, LLC, David Oil Company, LLC, and Tatonka Oil Company, LLC. All sales are subject to the terms, conditions, and bidding procedures set forth in the Order. Pursuant to the Order, the Trustee will entertain bids for the membership interests until **August 26, 2022 at 5:00 p.m.** A copy of the Order and the bidding procedures may be obtained through the Court's electronic filing system, or by requesting a copy from the Trustee's counsel at the number and/or email listed below.

If you are interested in purchasing any of these membership interests, please contact the Trustee's attorney Matthew D. Fazekas at 216-479-6138 or [mdfazekas@vorys.com](mailto:mdfazekas@vorys.com) for more information.

## Obituary

**Mark Moody** passed away on May 21, 2022, after being involved in a motorcycle accident while riding in Guernsey County, Ohio. Mark was a friend and colleague who served as the Director of the Ohio Petroleum Section of the SPE and organized their Annual Rollin McClelland Memorial Golf Outing.

A gathering to celebrate the life of Mark Allen Moody, 70, of Columbus, will be held from 2 to 4 p.m. Sunday, May 29, 2022, at Brucker and Kishler Funeral Home, 985 N. 21st St. Newark.

Mark passed away May 21, 2022, at Southeastern Ohio Regional Medical Center. He was born May 2, 1952, in Newark, to the late Ralph and Freda (Brucker) Moody.

Mark spent most of his life working in the oil field. He was a long-time member of the Society of Petroleum Engineers and the American Assoc. of Petroleum Geologists. He loved his family and his dogs, golfing, cheering on the Buckeyes, riding his Harley, and spending time with his many friends. He will be greatly missed.

He is survived by his wife of 47 years, Kathy (Gambrel) Moody; sons, Adam (Leslie Lockard) Moody and Matt (Mallory) Moody; brothers, Fred (Sandy) Moody and Steve (Lana Ocker) Moody; grandson, Mason Moody, and other family members.

In lieu of flowers, contributions can be made to the Wounded Warrior Project or the American Heart Association, two charities that Mark proudly supported.

Heat Illness Prevention  
Curtis Speck, CEO/President  
Safety Resources Company of Ohio, Inc.

Every year, dozens of workers die and thousands more become ill while working in hot or humid conditions. OSHA has developed a Heat Illness Prevention Campaign to address the dangers of working in the heat. OSHA has identified approximately 70 high-risk industries for targeted enforcement activity. This means that OSHA can now launch heat-related inspections on high-risk worksites before workers suffer preventable injuries, illnesses or fatalities.

The program establishes heat priority days when the heat index is expected to be 80° F or higher. On any heat priority days OSHA will initiate compliance assistance in the targeted high-risk industries and will also inspect any alleged heat-related fatality/catastrophe, complaint or referral regardless of whether the worksite fall within a targeted industry.

OSHA is encouraging employers to protect workers from heat hazards by providing access to water, rest, shade, training and acclimatization procedures. The program contains both compliance and outreach assistance components.

Factors that contribute to the development of heat illness include high temperature and humidity, low fluid consumption, direct sun exposure (with no shade) or extreme heat, limited air movement (no breeze or wind), heavy physical exertion, use of bulky protective clothing and equipment, alcohol or caffeine consumption, lack of physical fitness and other personal medical conditions.

During warm or hot weather, workers should be encouraged to consume an adequate amount of fluids (water or sports drinks), take frequent breaks out of the heat (in shady areas or air conditioning) and monitor each other for signs of heat illness. The first few days working in the heat are the most dangerous. Workers need to be acclimatized to working in warm or hot environments.

Common signs and symptoms of heat related illnesses:

- Heat stroke: confusion, slurred speech, unconsciousness, seizures, heavy sweating or hot, dry skin, very high body temperature, rapid heart rate – THIS IS A MEDICAL EMERGENCY – Call 911
- Heat Exhaustion: fatigue, irritability, thirst, nausea or vomiting, dizziness or lightheadedness, heavy sweating, elevated body temperature or fast heart rate
- Heat Cramps: Muscle spasms or pain usually in legs, arms or trunk.

If any of the above signs are present, promptly provide first aid. First aid for heat related illness involves the following principals: take the affected worker to a cooler area (shade or air conditioning), cool the worker immediately using active cooling techniques such as removing outer layers of clothing, placing ice or cold wet towels on the head, neck, trunk, armpits and groin, using fans to circulate air around the worker, and immersing the worker in cold water.

When in doubt – cool the worker and call 911

## WEST VIRGINIA UPDATE

By: Bob Matthey

Transportation of Ethane and NGL (Natural Gas Liquids), is done so via pipelines. MarkWest, a large natural gas gathering and processing company, has pipelines, the Liberty Ethane and Liberty NGL, along the I-70 corridor in Ohio County, West Virginia. These pipelines are crucial in moving fluids from the Sherwood Plant in Doddridge Co., WV and the Mobley Plant in Wetzel Co., WV. Underneath some parts of this pipeline is coal which Tunnel Ridge intends on and has permits to longwall mine. Doing so would force MarkWest to shut in these pipelines and cut off their transportation.

This would leave MarkWest without the ability to move these products, also, slow production of every company that sends gas through, and a loss of royalty payments to 1000's of West Virginia royalty owners. MarkWest seeks to condemn this coal because of the adverse effects mining it would have. The Ohio County Circuit Court ruled in favor of Tunnel Ridge and MarkWest has appealed this ruling to the West Virginia Supreme Court.

# SOOGA's Energy Insights

Hosted by Johnny Wharff  
Saturdays @ 9 A.M.

This program on the radio is brought to you by the Southeastern Ohio Oil and Gas Association and can be heard every Saturday at 9 A.M. Listen to the program on any of these five stations:

Previous episodes can be found on SOOGA.org or by searching for Energy Insights WMOA on YouTube. SOOGA's Energy Insights recently traveled to Washington DC to get a perspective of the industry on a federal level. Please listen to episodes from members of the Energy and Commerce Committee as well as the person in charge of the Environmental Protection Agency (EPA) Administrator Andrew Wheeler.

The Capitol Hill playlist:

## 2022 MEMBERSHIP DRIVE

The SOOGA Board of Trustees would like to thank everyone for the support of our organization. SOOGA is a grass roots organization established in 1978 to provide for the needs and concerns of the oil and gas industry and the specific needs of the Southeastern Ohio and West Virginia oil and gas industry.

Our industry has experienced its' share of highs and lows. Currently we are in the midst of unprecedented challenges. The issues at hand, whether regulatory, environmental or economic, are challenges aimed at the way we do business and will impact our livelihood.

SOOGA has dedicated leadership that is connected to the issues at hand and a collective voice heard by the people who can make a difference.

The Oil and Gas Industry has endured major change and is repeatedly addressing new issues that affect our industry. Make your voice heard, stay involved and encourage your associates to be involved.

Now more than ever your SOOGA membership is valuable. By staying involved in your organization you have the ability to stay ahead of the issues that will affect your business. Gas and Oil Prices are up, invest in your future convince your peers to join SOOGA.

### **Member Who Signs Up The Most Paid New Members By December 31, 2022**

**Will win \$100 per Membership up to \$500**

**(Prize Money is Donated by The Trustees personally)**

***\*\*To receive credit for New Members, your name must be listed as referred by on application.***

**[Don't Wait, Start Signing up Those New Members](#)**

**Winner Will Be Announced at the 2023 Membership Appreciation Meeting in April.**

**(Board members and employees are excluded)**

**Visit our website at [www.sooga.org](http://www.sooga.org) for Membership Applications.**

# 2022 SPRING GOLF OUTING

FLIGHT A: 1ST PLACE- PARAGON

2ND PLACE- WATERFORD TANK

3RD PLACE- BEN OIL

FLIGHT B: 1ST PLACE- SUTTON PUMP #2

I apologize we missed the OHIO811 group and Steve Zemper for the team pictures.

2ND PLACE- OHIO 811/STEVE ZEMPER-

3RD PLACE- EMF GEOSCIENCE

## SKILL PRIZES

### MEN:

#5 LONG DRIVE IN THE FAIRWAY- STEVE FARLEY

#18 LONGEST PUTT- AARON CLARK

#4 CLOSEST TO THE PIN- STEVE ZEMPER

#9 STRAIGHTEST DRIVE (CLOSEST DRIVE)- AARON TAYLOR

### WOMEN:

#14 LONG DRIVE IN THE FAIRWAY- AMY RUSSELL

#9 CLOSEST TO THE PIN- CHRISTY CHAVEZ

## THE FOLLOWING PROVIDED DOOR PRIZES:

\*Ergon Oil Purchasing

\*Oxbow Golf Course

\*DeepRock Disposal

\*CBIZ Benefits

\*Reno Oil & Gas
